

Dirghpal Suthar

Backend Developer | Android Developer | UI/UX Enthusiast
Rajasthan | Email: dirghpal2@gmail.com | Phone: +91-7374956389 | [\[LinkedIn\]](#) | [\[Github\]](#)

Professional Summary

Backend Developer and Android Developer with hands-on experience in building REST APIs and user-centric mobile applications. Skilled in Python, FastAPI, PHP, Laravel, Kotlin and Jetpack Compose, with familiarity in MySQL, MariaDB, Firebase and JSON. Also interested in UI/UX design and creating clean, responsive interfaces. Focused on practical development, API integration, database handling, responsive application design and continuously improving technical problem-solving skills.

Education

CLG Institute of Engineering and Technology, Sumerpur – Pali, Rajasthan Aug 2023 – June 2027

- B.Tech in Computer Science Engineering
- Current Semester: 7th Semester

Higher Secondary Education (12th Grade) 2023

- Bharti V M Senior Secondary School, Bheetwara – Pali, Rajasthan
- Rajasthan Board |

Secondary Education (10th Grade) 2021

- Mahaveer Public Senior Secondary School, Balrai – Pali, Rajasthan
- Rajasthan Board |

Projects

CRM – Customer Relationship Management System

Backend / REST API Development

- Developed backend APIs for CRM-based application workflows.
- Worked with API development, database operations and CRUD functionality.
- Implemented structured request/response handling for application data.
- Used **Python / FastAPI / Laravel / MySQL** according to the actual project.

Bhajiwala – Backend / REST API System

- Developed backend APIs for the Bhajiwala application.
- Worked with database integration and CRUD-based operations.
- Implemented API endpoints for application data management.
- Focused on structured backend architecture and reliable API communication.

IoT Smart Home System

- Developed an IoT-based Smart Home system focused on smart automation, device control and connectivity.
- Explored automation workflows and practical smart-control implementation.

Online Shopping App – Android Application

- Developed an Android e-commerce application using **Kotlin and Jetpack Compose**.
- Implemented product browsing and responsive navigation.
- Focused on clean UI and smooth user interaction.

Skills

Programming: Python, Kotlin, Java, C, C++ , PHP

Backend & APIs: FastAPI, Laravel, PHP, REST APIs, CRUD, JSON

Android: Jetpack Compose, Android Studio, XML, Firebase (Basic), Gradle

UI/UX: UI/UX Design, User Interface Design, Mobile App Design, Responsive Design

Database: MySQL, MariaDB

Web: HTML, CSS, JavaScript

Tools: GitHub, Android Studio, Development Tools

Internship / Certificate

Android Developer Intern (Virtual Internship) – CodSoft Feb 2026 – Mar 2026

- Completed a virtual internship focused on Android application development using Kotlin and JetpackCompose.
- Worked on practical Android application development, interface design and development workflow.
- Focused on clean interface design, responsive UI and modern Android practices.
